CLOSED CUFF SIZING GUIDE

Please set this guide to 100% scale, select “actual size” and print it on A4 paper.

Option One:

Using a closed cuff jewelry piece that already fits you well, place it on the sizing guides until you find its closest match. That will be your size.

Option Two:

Place your loc, braid, or twist on each sizing guide until you find your closest match. That will be your size.

You may confirm using the ruler.
